TITLE	Task Listing Catalog. TLC Fourth Edition.
INSTITUTION	East Central Network for Curriculum Coordination. Springfield, IL.
PUB DATE	Oct 83
NOTE	104p.
PUB TYPE	Reference Materials - Directories/Catalogs (132)
EDRS PRICE	MF01/PC05 Plus Postage.
DESCRIPTORS	*Agricultural Education; Catalogs; Curriculum; Postsecondary Education; *Technical Education; *Vocational Education
IDENTIFIERS	PF Project

ABSTRACT

Vocational, agricultural, and technical courses basic to a competency-based vocational curriculum are catalogued and tagged to curriculum materials and curriculum packages available in the East Central Curriculum Center (Illinois) library. Following a list of the East Central Vocational-Technical Network state representatives, material is divided into two sections. Section 1 contains a course list ordered numerically by Classification of Instructional Programs (CIP) code. Section 2 contains the same materials listed alphabetically. (LP)

Preface

The East Central Curriculum Center and its region of 12 states is one of six Curriculum Networks making up the National Network for Curriculum Coordination in Vocational-Technical Education (NNCCVTE). There is a State Liaison Representative (SLR) in each state. The SLRs of the East Central Region decided that this collection and catalog be developed. They view the task listing as the most important core element in competency-based vocational education.

This edition of the Task List Catalog compiled by the East Central Network for Curriculum Coordination in Vocational-Technical Education includes the number of tasks in each list, users of a task list (institutions, agencies or consortia that use but did not develop the list), as well as information about the availability of the task list from the ECN Center. The "Photocopy on Request" notation is used for task lists that can feasibly be copied and sent for free. **The Center is limiting these requests to six.** The ECN library number is given for more extensive curriculum packages that are available under the usual free loan service. The lists marked with an asterisk (*) are from Washington, DC and are scope and sequences. These lists contain more curriculum than many of the task listings in the collection.

Many of the task listings are from the states of the East Central Network. The names and addresses of the SLRs are found on page iii and names and addresses of other developers found in the catalog are on the following pages.

As in the previous edition of the catalog, the lists are cataloged twice. The first section contains the CIP Code order followed by an alphabetical listing by course title. The Classification of Instructional Programs (CIP) Code is used since it is the most recently developed code. The OE Code is still included in the catalog with the task listings.

The Center is now involved in putting the CIP Code-ordered listing on its electronic bulletin board. The results of this effort will be quick access to a list of the collection by microcomputer and the ability to request desired task listings at the same time. The number for accessing the bulletin board is 217/786-6737.

Educators are encouraged to submit their task listings for inclusion in the ECN collection. The form on the following page may be used for this purpose. If your task listing is incorporated into the ECN collection you will be given full credit and listed in the catalog as a developer. All requests for the listing will be handled by the ECN at no expense to you.

A future feature of the task listing collection will be the on-line availability of "model" or "ideal" task lists in selected areas. This is planned for implementation by Spring, 1984.

To borrow or get a photocopy of any of the tasks lists in the catalog simply write or call **East Central Network for Curriculum Coordination, Sangamon State University, E-22, Springfield, IL 62708 217/786-6375 or (in IL) 800-252-8533.**

WANT TO SHARE YOUR TASK LISTING?

If you have developed a task listing you would like to have available from the East Central Network's collection and listed in this catalog, submit the listing along with this form to the **Task Listing Catalog, East Central Network, Sangamon State University, E-22, Springfield, IL 62704.** By filling out this form you entitle the ECN to add your task list to its databank, share through a national network and disseminate as appropriate.
